19 MAY 1977

DIFFERENTIAL FEES FOR FOREIGN STUDENTS

The following letter, dated 10 May 1977, was sent by E.A. Geddes, Chairman of the University's Board of Governors, to the Honorable A.E. Hohl, Minister of Advanced Education and Manpower.

Dear Dr. Hohl:

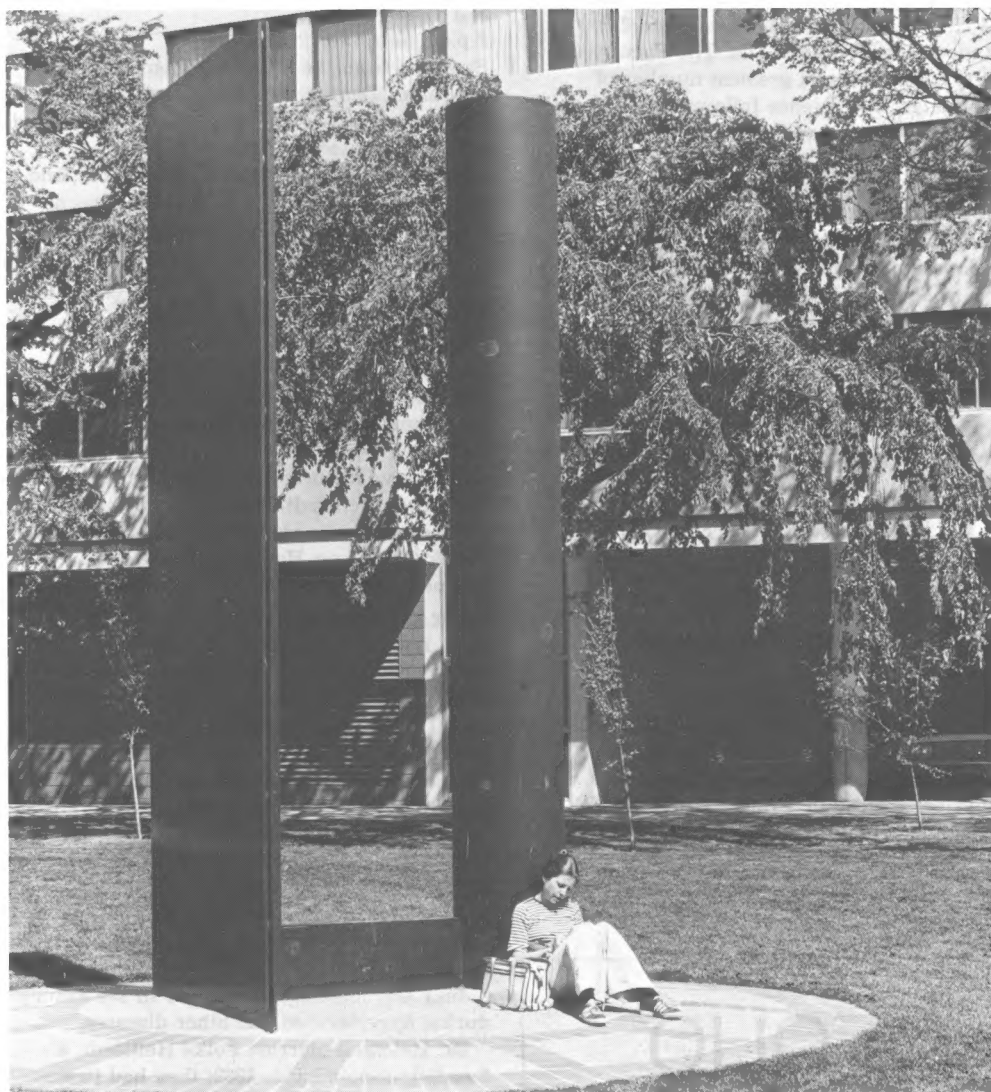

Tuition Fees for Foreign Students

I am writing in response to your letter of February 10, 1977, and also to confirm matters which we have discussed on a number of occasions and most recently at a meeting which Dr. Gunning and I had with you on April 25, 1977.

The Board of Governors is satisfied that the proposal for an increase in foreign student fees is not an issue which brings the matter of University autonomy into question and is not to be considered as a precedent. The Government has not, during our discussions, given us any real concern about interference in University governance. We accept without reservation your position that Section 15(1) (3) of the Universities Act is unique in its requirement that the University and the Government must agree on tuition fees and the failure to agree as required under the Act must be settled in some way. You have stated that it is the collective will of the Government that tuition fees for foreign visa students must be increased and our failure to do so brings us into direct conflict with the Government.

You have also told us that the establishment by you of a Committee to examine the entire question of student fees will not proceed until the current issue is resolved. We believe that the important issues of the cost of higher education and the assignment of this cost to students, both domestic and foreign, and to the taxpayers of Canada is of over-riding importance and must be addressed quickly. Any further delay in having our position in this matter considered by your representative Committee can only be to the long-term detriment of foreign students.

Our Board continues to believe this proposal for a fee increase to be wrong and not in the best interests of the University nor, in the long run, the general public and we hope you will reconsider this proposal. Equally, however, I am convinced that the

Richard Kerr

interests of the University are suffering and that more substantive matters are not being considered because of this impasse.

On the basis that

- (a) a Committee to investigate the matter will be established promptly at which time our views will be considered,
- (b) that there is no disagreement between us on the matter of continued University autonomy on all matters which are properly within our jurisdiction and
- (c) the Government requires that the

student fee increase be implemented, the University is prepared to implement an increase of \$300 in foreign student fees to apply to visa students entering the University for the first time in the fall of 1977.

I would intend that the contents of this letter be made available to interested parties within the University community.

Yours sincerely,
(Signed) E. A. Geddes
Chairman of the Board of Governors.

SPRING CONVOCATION: THE FIGURES

An unofficial total of 3,071 University students are eligible to attend Spring Convocation on 26, 27, and 28 May at the Jubilee Auditorium. The Faculty of Education has the greatest number of graduates: 744. This figure comprises 659 BEd graduates, 58 Graduate Diploma students, and 27 students receiving PDADs. The Faculty of Arts has the second greatest number of graduates, 561. Science follows with 453, then Engineering with 244 students graduating. Law and Medicine will graduate 115 and 186 students respectively, while Business Administration and Commerce will graduate 110. Physical Education and Recreation has 144 graduates; Pharmacy and Pharmaceutical Sciences has 90. In Nursing 78 students will graduate, in Home Economics 67 students will graduate, and in Agriculture and Forestry there will be 65 graduates. Dentistry has 39 graduates, Dental Hygiene 32, while Rehabilitation Medicine has 29 graduates and Medical Laboratory Science 20. In addition, 18 students will graduate from the Collège Universitaire Saint-Jean. Finally, there are 76 graduates in the Faculty of Graduate Studies and Research.

CONVOCATION CALENDAR

Part One

2 p.m., Thursday, 26 May

Students from the following faculties will graduate: Business Administration and Commerce, Education, Home Economics, and Physical Education. Frank O'Sullivan will receive an Honorary Doctor of Laws degree.

Part Two

2 p.m., Friday, 27 May

Students from the following faculties will graduate: Agriculture and Forestry, Arts, Engineering, Science, and Collège Universitaire Saint-Jean. Harold MacNeil will receive an Honorary Doctor of Laws degree.

Part Three

2 p.m., Saturday, 28 May

Students from the following faculties will graduate: Dentistry, Dental Hygiene, Law, Graduate Studies and Research, Medicine and Medical Laboratory Science, Nursing, Pharmacy and Pharmaceutical Sciences, and Rehabilitation Medicine. Leone MacGregor Hellstedt will receive an Honorary Doctor of Science Degree.

THREE HONORARY DEGREE RECIPIENTS

Each year the University pays tribute to men and women who have made substantial achievements in their fields of endeavor.

At Spring Convocation this year, three people will receive honorary degrees: Leone McGregor Hellstedt, MD, an Honorary Doctor of Science degree and Harold A. MacNeil and Frank O'Sullivan Honorary Doctor of Laws degrees.

LEONE MCGREGOR HELLSTEDT

Born Leone McGregor in Carnduff, Saskatchewan, Dr. Hellstedt graduated in Medicine in 1925, the first woman to receive an MD from this University. She received an MSc and a PhD from the University of Minnesota, where she studied pathology, and then took post-doctoral training at Harvard as a National Research Fellow and at the University of Hamburg on a Rockefeller Fellowship. During those years, she published a number of papers presenting what was at the time new and original research on the microscopic structure of the kidney and histological changes in the kidney during hypertension and other diseases.

Dr. Hellstedt married Folke Hellstedt, a Swedish economist, in 1932; they had two children, and have since lived in Sweden. Since 1948 Dr. Hellstedt has practised psychoanalytic medicine and therapy, which she studied in Zurich and Stockholm. An active member of Sweden's Federation of Medical Women and past president of the Medical Women's International Association, Dr. Hellstedt is highly conscious of her role as a professional woman; indeed, her address will be on the topic of "The emergence of women in medicine."

HAROLD A. MACNEIL

Harold MacNeil was born in Saskatoon, Saskatchewan, and attended Calgary Normal School; he then taught for three years before

serving with the Royal Canadian Air Force for three years. He received a BEd and an MEd from this University, then returned to teaching. In 1953 he joined the Department of Education and in 1961 became Superintendent of the Edmonton Separate School Board. Mr. MacNeil and his wife Norma (née Weiler) have six children, of whom three have entered teaching.

Mr. MacNeil has long been actively involved in educational affairs as a member of many associations and committees and of community organizations. He served on the University Senate for six years and chaired two task forces. As superintendent he has brought many innovations to the Separate School System, among them greater administrative decentralization and a number of new school programs. Throughout his career, he has sought a close relationship between school and community and has encouraged schools to develop the programs and policies that best suit their needs and those of their pupils.

FRANK O'SULLIVAN

Frank O'Sullivan was born in Ringstad, Northamptonshire, England, and received his formal education there. He emigrated to Canada and in 1933 began construction and sand and gravel operations in Lethbridge. In the same year he married Elizabeth Wishart; they have two children.

During the war he worked on Defence Department contracts, while, at the same time, his company began coal mining in British Columbia. After the war, he continued in sand and gravel and his construction firm began road and bridge building. From 1949 till 1957 he worked in the Mannix-O'Sullivan Paving Company Limited carrying out large Alberta Government and municipal contracts; when the company was sold to Mannix Construction, Mr. O'Sullivan continued with that firm, becoming Vice-President in 1960. In addition, he established Twin Bridges Sand and Gravel Company Limited in 1956, and the firm went on to become a major supplier to Edmonton.

For many years Mr. O'Sullivan has had an interest in the development of Alberta's natural resources; an early interest in the Athabasca Oil Sands led him to negotiate the launching of the Great Canadian Oil Sands project. He has been a consultant to GCOS for many years and is now involved in the development of more efficient oil extraction methods.

Although officially retired, Mr. O'Sullivan still works on many projects in the field of resource development. He continues to seek ways by which Albertans can benefit from the wealth of their province.

THE WALTER C. MACKENZIE VISITING PROFESSORSHIP

The Walter C. MacKenzie Visiting Professorship is a most distinguished award and is the greatest honor that the Faculty of Medicine confers. Dr. MacKenzie served the Faculty of Medicine as Professor and Chairman of the Department of Surgery from 1950 to 1960 and as Dean of the Faculty from 1959 to 1974. The fund for the Visiting Professorship was established in his honor at the time of his retirement. The Professorship was designed to provide for the visit of an outstanding educator, scientist, or clinician from any part of the world to this University.

The first award took the form of a lecture series held in May 1976 and was presented by four distinguished investigators in the field of cancer research: Hilary Koprowski, Director of the Wistar Institute, Philadelphia; R.W. Baldwin from the University of Nottingham, England; Henry S. Kaplan from the Stanford University School of Medicine; and Paul Carbone, National Cancer Institute in Bethesda, Maryland. This year the Lecture Series will be given by Arthur Kornberg and Rupert Billingham.

For the past twenty years, Arthur Kornberg has concerned himself with research and teaching in the field of DNA synthesis and related biochemical problems. His demonstration of the *in vitro* enzymatic synthesis of DNA earned the 1959 Nobel Prize in Medicine, an honor he shared with Severo Ochoa of New York University. This work led him to the synthesis of an infective viral DNA in 1967 and proof that a biologically active chromosome could be assembled in the test tube by pure enzymes from simple chemical components. He will present two lectures. The first, "DNA replication," will be given at 4 p.m. on Tuesday, 17 May, in 126 Physics Building. The second, "Recent studies of ϕ X 174 DNA Replication," will be given at 9:15 a.m. Wednesday, 18 May, in 227 Medical Sciences Building.

Rupert Billingham is one of the originators of the field of transplantation biology. He originally collaborated with Sir Peter Medawar and Leslie Brent on the work that launched the concept of immunological tolerance which subsequently led to a Nobel Prize. For the past decade, his attention has focused on the immunobiology of the maternal-fetal relation, and Dr. Billingham and his colleagues have become widely recognized as leaders in this area. Dr. Billingham will present two lectures. "Immunological benefits and hazards of milk" will be delivered at 12 noon, Thursday, 26 May, in 227 Medical Sciences Building. "Transplantation immunity and the feto-

Richard Kerr

The Chief Marshall rests the University's mace on its stand, where it remains throughout the Convocation ceremony. The mace, borne before the Chancellor in the procession, was presented to the University seven years ago in memory of F.P. Galbraith, Chancellor from 1964 until his death in 1970. The mace was especially designed for the University and includes the maple leaf, the wild rose of Alberta, the University's crest, and its motto, "Quaecumque vera."

placental unit" will be delivered at 8 a.m. Friday, 27 May, in 227 Medical Sciences Building.

AFRICAN BISHOP TO VISIT CAMPUS

Desmond Tutu, Anglican Bishop of Lesotho, will visit Edmonton and the University as part of a continent-wide tour arranged by the Anglican Church. Bishop Tutu was the first black man to be Dean of St. Mary's Cathedral in Johannesburg, South Africa; his diocese, Lesotho, is a tiny constitutional monarchy completely surrounded by, and dependent on, South Africa. Bishop Tutu will speak on life in Lesotho and South Africa at the Students' Union Theatre on 24 May at 12 noon as part of Africa Week. He will also be a guest at a benefit for refugees in Mozambique to be held at the Hovel, 10709 Jasper Avenue, during the evening of 24 May and will speak to the first annual meeting of Interchurch International at 7:30 p.m. on 25 May in the Knox Presbyterian Church, 109 Street and 83 Avenue.

ENERGY CONSERVATION

The following article has been received from R.J. Burns, Director of the Office of Energy Management.

The University's Vehicle Pool, a Division of Physical Plant, operates and maintains a fleet of approximately 200 vehicles at its Maintenance Garage at the Edmonton Parkland Research Station, with light service provided at the University Services Building on campus. The University fleet vehicles range from sedans to station wagons and from light delivery to medium heavy trucks; the vehicles travel 1,750,000 miles and consume 160,000 gallons of gasoline annually.

Over the last five years, Geoff Panter, Manager of the Vehicle Pool, has implemented changes in both fleet concept and operating procedures to reduce energy consumption. To reduce overall fuel consumption, twenty-six compact vehicles with greater fuel economy have been introduced to replace larger vehicles. Electronic testing equipment is used to ensure good fuel economy and performance. Exhaust gas analyzers are used to ensure that

emissions do not exceed allowable standards and that anti-pollution devices are maintained in accordance with manufacturer's standards. A specific study carried out in 1976 on station wagons showed approximately an 8 percent reduction in fuel consumption over previous years.

In addition to the work being done with the actual vehicles, the Vehicle Pool has undertaken changes in operational procedures to reduce building energy consumption in the Maintenance Garage. Lighting levels have been reduced by 25 percent, rooms that are used on an intermittent basis have lights turned off, and off-hours emergency shop lighting is timer controlled. Compressed air systems are shut down at the close of the workday, reducing operating time by 75 percent. Use of air conditioners is restricted, lower building operating temperatures have been implemented, and air ventilation levels have been reduced, commensurate with safety standards. An automatic time and temperature control system operates vehicle plug-ins, restricting their hours of operation.

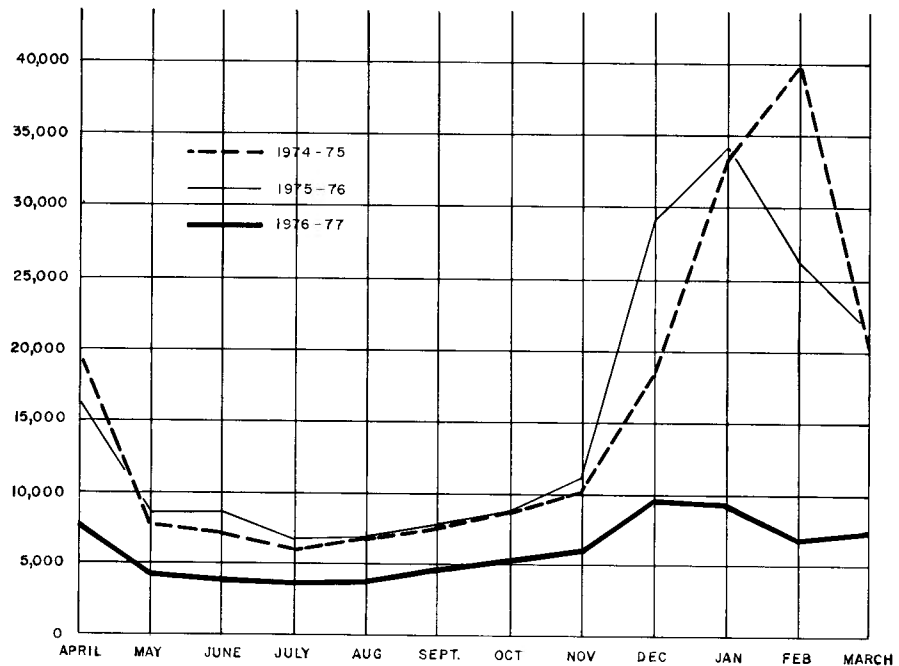

The efforts of the Vehicle Pool staff have been rewarded with significant results as shown on the graph. A reduction of 44 percent has occurred in 1976-77 power consumption compared to previous years. This saving was even more dramatic throughout the winter months. (Although Edmonton experienced a mild winter, it is significant to note that power consumption in December 1976 and January 1977 was held to a level comparable to summer levels in previous years.) While the Vehicle Pool is reducing energy consumed at the Maintenance Garage, improving maintenance procedures, and converting to more economical vehicles, conservation efforts can be greatly reinforced by vehicle operators' driving habits. Mr. Panter points out that overall fuel economy of a vehicle is improved by avoiding long warm-up periods, excessive idling, excessive driving speeds, and erratic driving habits.

The Office of Energy Management commends Mr. Panter and his staff on their efforts and draws to the University's driving staff's attention that further improvements are a shared responsibility.

PEOPLE

■ G. Fitzsimmons, Assistant Professor of Educational Psychology, has recently received funding from the Alberta Advisory Committee for Educational Studies to carry out a pilot investigation of the psycho-physiological behavior of normal and poor readers. He also received \$16,950 from

VEHICLE POOL DIVISION POWER CONSUMPTION

Medical Services Research Foundation of Alberta to investigate the comparative efficacy of biofeedback training and alternative therapeutic techniques in the treatment of anxiety.

■ Karol Krotki, Professor of Sociology, represented Canada at a seminar sponsored by the International Development Research Centre of Ottawa and held at UNESCO in Paris. The purpose of the seminar was to study the use of socioeconomic data for development planning in less-developed countries. Dr. Krotki later visited centres in Paris, Bratislava, and London that specialize in handling socioeconomic data.

■ Ivan L. Rudnytsky, Professor of History, attended a conference at Harvard University from 28 to 30 April; the conference was on "Austria-Hungary, 1867-1918: Cultural, Social, and National Problems." Dr. Rudnytsky gave a paper entitled "The making of Ukraine's Galician 'Piedmont'."

■ Nelli Antonio Peruch of the Department of Romance Languages presented a paper (in Italian) entitled "Tra Ariosto e Tasso: *L'Angelica Innamorata* di Vincenzo Brusantino, *Seguito controriformistico dell' Orlando Furioso*" to the Pacific Northwest Council on Foreign Languages in Spokane on 22 and 23 April. The paper will be

published in the *Proceedings of the PNCFL* this June.

■ J.J. Mitchell, Professor of Educational Psychology recently spoke to provincial community health workers at a conference in Calgary, sponsored by Alberta Social Services and Community Health. Professor Mitchell was also the featured speaker at a symposium at the University of Regina on adolescent sexuality.

■ J.P. Das of the Centre for the Study of Mental Retardation and R.F. Jarman of the Department of Educational Psychology at the University of British Columbia have been awarded a research grant of \$12,000 by the Canada Council in support of a study entitled "Cognitive ability patterns among children of Anglo-Saxon heritage." The study will be conducted in the Vancouver area. Dr. Das has also been appointed Consulting Editor for *Intelligence*—a multi-disciplinary journal—and for the *American Journal of Mental Deficiency*.

■ Ron Savitt, Associate Professor and Chairman of the Department of Marketing and Economic Analysis, presented a paper entitled "Consortium marketing for small business: Canada and Eastern Europe" at the Academy of Marketing Science Annual Conference in Akron, Ohio, on 6 May.

■ David Schiff of the Department of Pediatrics and Michael Wolowyk of the Faculty of Pharmacy are among the contributors to *Perinatal Medicine: The Basic Science Underlying Clinical Practice* edited by J.W. Goodwin, J.O. Godden, and G.W. Chance. The book is the first of its kind and is intended for use in undergraduate and graduate training programs in obstetrics, fetology, and neonatology. All of the contributors are affiliated with Canadian universities and hospitals.

VISITORS

- Roman Voronka, student of Professor J.B. Keller of the Courant Institute in New York, gave a lecture to the Department of Mathematics on 9 May on the topic "The diffusion approach to gene frequency behavior rear fixation."
- Gary L. Ellenor of Idaho State University presented a seminar entitled "Clinical pharmacy" to the Faculty of Pharmacy and Pharmaceutical Sciences on 3 May.
- Mahlon M. Day of the University of Illinois took part in a Mathematics Colloquium on 13 May, delivering a lecture entitled "Mimicry in normed spaces."
- John Cobby of the College of Pharmacy of the University of Nebraska Medical Centre presented a seminar entitled "The disposition of diethyldithiocarbamate, a metabolite of disulfiram, in the dog" on 26 April to the Faculty of Pharmacy and Pharmaceutical Sciences.
- M. Hongoh of the University of Montréal spoke to the Theoretical Physics Institute on 4 May on the topic "An introduction to the generalized coherent states."
- An eight-member mission from the People's Republic of China will tour the Edmonton Research Station of the Department of Animal Science on the afternoon of 20 May. The group, composed of Chinese specialists in animal nutrition, is spending the period from 17 May to 10 June in Canada. The mission is a follow-up to the China/Canada Grains Symposium held in Peking and Canton in 1975. J.P. Bowland, Dean of the Faculty of Agriculture and Forestry, was one of the nine-member delegation that visited China then; he has been involved in the organization of the reciprocal mission from China. The tour, which is under the auspices of the Canadian International Grains Institute, will enable the participants to learn about Canadian livestock operations by observing commercial and research facilities.
- Sartaj Sahni, Associate Professor in the Department of Computing Science at the

APPOINTMENT

Paul C. Sartoris, Professor of Educational Psychology, has been appointed Director of Student Counselling Services; he has been the Acting Director since 1976. Dr. Sartoris pursued his undergraduate studies here and received his Master's degree from this University. Shortly after receiving his PhD in Clinical Psychology from the University of Utah in 1966, he joined the University with a joint appointment between the Counselling Services and the Department of Educational Psychology. In 1972 he was promoted to full Professor. Dr. Sartoris has served on several University committees, including the GFC Committee to Study Student Stress, the Coordinating Council's Board of Examiners in Social Work, and the GFC Safe Campus Committee. He has also served on the executive of the Psychologists Association of Alberta.

University of Minnesota, will visit the Department of Computing Science from 22 to 24 May. He will give a talk on approximate and exact solutions for some particularly difficult problems, such as the scheduling problem and the knapsack problem; the talk will take place on 23 May in 611 General Services Building.

BOOKS

- *Den socialistiske realisme, en litteraer metodes teori og historiske udvikling (Socialist Realism: The Theory of a Literary Method and its Historical Evolution)* by E. Mozejko, Professor of Comparative Literature and Slavic Languages, was published recently in Copenhagen by Gyldendal. The book gives a critical analysis and description of Socialist Realism in the Soviet Union, Eastern Europe, and the West. An edition of the book is to appear in German later this year.

NOTICES

PRIVATE STALLS

A limited number of private stalls with plug-ins is available in Stadium Car Park. Interested persons should contact Parking Services, telephone 432-3811 or 432-2236.

COMMITTEE VACANCIES

Board Committee on University Priorities. The Board of Governors, at its meeting on 6 May, approved the composition of this Committee, which will include two members elected by General Faculties Council. The Nominating Committee is therefore seeking nominations for two members of the University to serve on the Board Committee on University Priorities. Persons who have

suggestions for nominations or who are interested in serving on the Committee are requested to contact the Secretary of the Nominating Committee, 1-15 University Hall, telephone 432-4715, by 27 May.

LOST AND FOUND PROPERTY

Campus Security operates a lost and found registry and is required to destroy or otherwise dispose of a large amount of property each year because no claim is ever registered by owners. The University community should become aware of the lost and found service; if you need assistance, telephone 432-5252 or visit the Campus Security offices north of the Education Centre.

SURPLUS EQUIPMENT

The Purchasing Department wishes to encourage departments on campus to dispose of any surplus equipment that they might have. Disposal of surplus equipment is accomplished by completing a surplus equipment declaration form and forwarding it to the Purchasing Department, General Services Building. Equipment that has been declared as surplus will normally be listed in *Folio*. Proceeds from the sale of surplus equipment are usually credited to the account from which it was purchased, but this is not always the case. Further information and details about the procedure for disposing of surplus equipment can be obtained by telephoning Bonnie O'Dwyer at 432-3208.

RECREATION 479

E.J. Tyler, social psychologist from Brandon University, will be teaching Recreation 479, a seminar course applying social psychology theory to recreation practice. It will be offered through the Department of Recreation Administration in the second term of Spring Session each day from 10 a.m. to 12:20 p.m. The seminar will be of interest to

graduates and senior undergraduates in the social sciences. Interested persons should note that the course will have a maximum enrolment of twelve.

DEVONIAN BOTANIC GARDEN

The Devonian Botanic Garden, situated three miles north of Devon on highway 60, will be open during the following hours this summer: Saturday, Sunday, and public holidays, 1 p.m. to 6 p.m.; during May from Monday to Friday, 3 p.m. to 8 p.m.; June, July, and August, Monday to Friday from 3 p.m. to 9 p.m.

COMMITTEE ON UNIVERSITY PRIORITIES: CORRECTION

In the *Folio* of 12 May an error was made in the coverage of the Board of Governors under the heading "Committee on University Priorities." The sentence beginning "two members will be lay members of the Board. . . ." should read "Two members will be lay members of the Board appointed by the Chairman, two will be elected by GFC, and two appointed by the President, one of whom will be nominated by the Executive Council of GFC and the other of whom will be nominated in consultation with the AASUA."

THIS WEEK AND NEXT

Listings must reach the Editor by 9 a.m. the Friday prior to publication. Written notification is preferred.

19 MAY, THURSDAY

Cinematheque 16

7:30 p.m. *Rosemary's Baby* (United States, 1968). Directed by Roman Polanski and starring Mia Farrow. Downstairs, Edmonton Art Gallery. Admission is \$2 for members and \$2.50 for non-members. Tickets available at the door.

20 MAY, FRIDAY

Faculty Club

Downstairs. TGIF: Deli night: hot corned beef, potato salad, green salads, cheesecake. *Upstairs.* Lobster, \$12.50. Also regular dinner menu. Reservations required.

Cinematheque 16

7:30 p.m. *Rosemary's Baby* (United States, 1968). Directed by Roman Polanski and starring Mia Farrow. Downstairs, Edmonton Art Gallery. Admission is \$2 for members and \$2.50 for non-members. Tickets available at the door.

National Film Theatre

8 p.m. *Two-Lane Blacktop* (United States, 1971). Centennial Library Theatre. Admission

APPOINTMENTS

James H. McTeague, now Chairman of the Department of Theatre at Western Illinois University, will become Chairman of the Department of Drama on 1 July. Dr. McTeague holds a BFA and an MFA from Carnegie-Mellon University and a PhD from the University of Iowa. Specializing in the areas of directing, dramatic theory and criticism, and administration, he has taught at Earlham College, Fairmont State College, the University of Iowa, and Emporia State College; he has been at Western Illinois University since 1964. Director of more than seventy productions for both professional and educational theatre, Dr. McTeague also organized a permanent music theatre at Western Illinois University, which operates and tours year round. Recently he conducted a study of theatre schools and companies in Europe and lectured at the universities of Florence, Pisa, and Bristol. Dr. McTeague, a member of the Communication Association of America, the American Theatre Association, and the National Collegiate Players, has published a number of articles on technique in theatre. (No photo available.)

Brian L. Scarfe, now Acting Head of the Department of Economics at the University of Manitoba, will become Chairman of the Department of Economics on 1 July. Dr. Scarfe received a BA in Economics from the University of British Columbia in 1963 and a Bachelor of Philosophy degree (1965) and a PhD (1970) from Oxford University. From 1968 to 1972 he was an Assistant Professor of Economics at the University of Manitoba; from 1972 to 1976 he was an Associate Professor and in 1976 was appointed Acting Head of the Department. While on leave in 1970-71, Dr. Scarfe was Senior Research Economist, Prices and Incomes Commission, for the federal government. During the summer of 1974, he was Consultant to the Research Department of the Bank of Canada. Dr. Scarfe specializes in the areas of multi-sectoral and dynamic models, inflation and stabilization policy, theories of growth and development, and international economics. He has published in the areas of multi-sectoral growth and technological change, price determination and the process of inflation in Canada, and inflation and the exchange rate. (No photo available.)

is \$2 regular, \$1.50 for students and senior citizens. Tickets available at the HUB Box Office, the Centennial Library's A-V Desk, and the door.

21 MAY, SATURDAY

Faculty Club

Downstairs. Saturday special: veal cordon bleu, noodles, vegetables, Caesar salad, almond torte. *Upstairs.* Lobster, \$12.50. Also regular dinner menu. Reservations required. Entertainment: Charlie Austin Quartet.

22 MAY, SUNDAY

Cinematheque 16

2 p.m. *Man Without a Star* (United States, 1955). Directed by King Vidor and starring Kirk Douglas. Downstairs, Edmonton Art Gallery. Admission is \$2 for members and \$2.50 for non-members. Tickets available at the door.

24 MAY, TUESDAY

Biomedical Engineering Seminar

10 a.m. "Engineering for rehabilitation," with speaker James Foort, University of British Columbia. 2-117 Clinical Sciences Building.

Biochemistry Seminar

4 p.m. "Recombination of bacteriophage T7 DNA *in vitro*," with speaker Paul Sadowski, University of Toronto. 470 Medical Sciences Building.

National Film Theatre

8 p.m. *Movie Crazy* (United States, 1932). Harold Lloyd Comedy Series. Centennial Library Theatre. Admission is \$2 regular, \$1.50 for students and senior citizens. Tickets available at the Hub Box Office, the Centennial Library's A-V Desk, and the door.

25 MAY, WEDNESDAY

Student Cinema

7 p.m. *The Man in the Glass Booth* (United States, 1975). Directed by Arthur Hiller and starring Maximilian Schell. 9:30 p.m. *Steppenwolf* (United States, 1974). Starring Max Von Sydow and Dominique Sanda. Students' Union Theatre. Admission is \$2. Tickets available at the HUB Box Office and the door.

Recital

8 p.m. Doreen Beck, flute, and Janet Scott, piano, perform. Lansdowne Baptist Church, 5011 122A Street.

26 MAY, THURSDAY

Walter C. Mackenzie Lecture

NON-CREDIT COURSES

INTRODUCTION TO APL

Computing Services is offering a course on the fundamentals of APL (A Programming Language) from 2 p.m. to 4 p.m. Monday, Wednesday, and Friday between 13 and 24 June in 328 General Services Building. The course requires no computing experience and is limited to eighteen students. Registration costs \$10 and may be paid in the Computing Services General Office, 352 General Services Building. For further information contact Debra Kozuback, telephone 432-2261.

MTS AND EDITOR FUNDAMENTALS

Computing Services is offering a course to introduce the University computing system (MTS) to users. The course includes practice in procedures for signing on to the system and for storing and manipulating information. There will be two classes, each with a limit of seventeen members, the first from 9 a.m. to 11 a.m. on 6 and 8 June and the second from 9 a.m. to 11 a.m. on 27 and 29 June in 351 General Services Building. There is no fee for the course, but registration may be made in the Computing Services General Office, 352 General Services Building. For further information contact Debra Kozuback, telephone 432-2261.

SPIRES RECORD (FILE) MANAGEMENT

This course, given by Computing Services, will explain and give examples of Global FOR and Partial Processing FOR to enable the file owner and manager to maintain a file with more powerful commands. Course members must have taken the course Introduction to SPIRES. The course will be held on 23 June from 9 a.m. to 12 noon in 328 General Services Building. The class limit is seventeen persons, and registration, which may be made in the Computing Services General Office, costs \$10. For further information contact Debra Kozuback, telephone 432-2261.

SPIRES FILE DEFINITIONS—PART I

This course will familiarize the user with the file definition process and terminology and train him to write simple file definitions. Computing Services is offering it on 9 and 10 June between 9 a.m. and 12 noon in 328 General Services Building. Registration is limited to seventeen people and may be made in the Computing Services General

Office, 352 General Services Building. Registration is \$20. For further information contact Debra Kozuback, telephone 432-2261.

SPIRES FORMAT—PART I

SPIRES File Definitions—Part I is the prerequisite to this course which will familiarize the user with the processes and terminology of the SPIRES Formats Manual. The user will learn to write simple output formats. The course is being offered by Computing Services on 16 and 17 June between 9 a.m. and 12 noon in 328 General Services Building. The class limit is seventeen, and the registration fee is \$20. Registration may be made in the Computing Services General Office, 352 General Services Building. For further information contact Debra Kozuback, telephone 432-2261.

SPIRES WORKSHOP

Computing Services is offering two workshops on SPIRES, the Stanford Public Information Retrieval System. Each three-hour workshop will be an introduction to searching, updating, and editing files under SPIRES. The prerequisite to the workshops is the course MTS and Editor Fundamentals, or the class members should simply be able to use terminals well. The workshops will be held on 1 June and 13 June from 9 a.m. to 12 noon in 328 General Services Building. There is no course fee, but the workshops are limited to seventeen participants, who may register in the Computing Services General Office, 352 General Services Building. For further information contact Debra Kozuback, telephone 432-2261.

MENTAL HEALTH RESEARCH FUND PROPOSALS INVITED

Funding for mental health research projects and related research activities is now available from Alberta Social Services and Community Health. The final deadline for submission of research proposals is **SEPTEMBER 16, 1977**

The Provincial Mental Health Advisory Council is particularly interested in research which:

- 1) explores the staffing and training of registered psychiatric nurses
- 2) investigates suicide and self injury
- 3) explores the effectiveness of post-discharge treatment and care of psychiatric patients
- 4) evaluates existing programs, including study of the utilization of volunteers in the provision of mental health services

Although areas of specific interest have been suggested, the Council will also consider proposals pertinent to other areas of mental health. For guidelines governing these grants or an application form, contact:

**Executive Secretary
Research Committee
Provincial Mental Health
Advisory Council
